EDUCATION

EA-912 Introduction to Educational Leadership
This course will introduce students to the MA standards for school administrators, the requirements of the WSU program; and the theoretical underpinnings of educational leadership/administration. Portfolio requirements will be outlined.
2 Credits

EA-913 Action Research for School Administrators
The course will focus on qualitative/quantitative research whereby the students will learn to carry out action research in their own school settings. Students will be conducting research as part of their course/practicum requirements relative to: Standard 1-Instructional leadership; Standard 2 - Management and Operations; Standard 3-Family and Community engagement; and, Standard 4-Professional Culture throughout the program. How to write real case studies will also be addressed as a way to do research.
2 Credits

EA-915 Economic and Operational Dimensions of Education
This course focuses on blending the skills required for effective resource allocation coupled with the need to make practical and strategic decisions that promote student achievement in a safe/orderly learning environment.
3 Credits

EA-918 Family and Community Engagement
Focus will be on ways to build strong working relationships and connections between families, community providers, and schools. How to effectively communicate and learn from families from diverse backgrounds and community members in order to promote student learning is emphasized
3 Credits

EA-923 Governance, Ethics, & Law in Education
This course focuses on the myriad of legal, ethical, and mandated regulations that must be considered in creating and operating a school system.
3 Credits

EA-924 Curriculum, Instruction, & Assessment for Aspiring Leaders
This course seeks to engage aspiring leaders through a constructivist approach to teaching and learning with a focus on curriculum, instruction and assessment (CIA) that can positively impact the achievement of all students. CIA will be examined from a theoretical and practical perspective with a focus on the administrator’s role in driving change that is grounded in research, data and equity for all.
3 Credits

EA-929 Educational Leadership Capstone Assessment/Evaluation
This capstone assessment will be used to assess the students overall ability to meet the 4 MA standards for school administrators and their ability to put these into practice in their school setting. Submission of portfolio and presentation demonstrating action research undertaken during the program will be part of the capstone assessment process.
1 Credit

EA-931 Administration of Programs for Children with Special Needs
Prerequisites: EA-912
The implications of legislation for administrators who are responsible for implementing these programs.
3 Credits

EA-939 Action Research Project I
A two semester course during which students will enroll for two consecutive semesters. During the two semesters students will meet both in large groups and individually in developing their action research projects. [Continues as EA940.]
3 Credits

EA-940 Action Research Project II
A two semester course during which students will enroll for two consecutive semesters. During the two semesters students will meet both in large groups and individually in developing their action research projects. [Continuation of EA939.]
3 Credits

EA-941 Educational Lead Research Forum
2 Credits

EA-950 Family and Community Practicum- Elementary
The family and community engagement practicum is designed to prepare future administrative leaders to interact more effectively with parents and community organizations in order to promote the growth of ALL students within the school setting. Action research is part of the practicum. Portfolio assessment #1 submitted for evaluation.
Fall and Spring. 1 Credit

EA-951 Family and Community Practicum- Middle School
The family and community engagement practicum is designed to prepare future administrative leaders to interact more effectively with parents and community organizations in order to promote the growth of ALL students within the school setting. Action research is part of the practicum. Portfolio assessment #1 submitted for evaluation.
1 Credit

EA-952 Family and Community Practicum- Secondary School
The family and community engagement practicum is designed to prepare future administrative leaders to interact more effectively with parents and community organizations in order to promote the growth of ALL students within the school setting. Action research is part of the practicum. Portfolio assessment #1 submitted for evaluation.
1 Credit

EA-953 Family and Community Practicum- Supervisor/Director
The family and community engagement practicum is designed to prepare future administrative leaders to interact more effectively with parents and community organizations in order to promote the growth of ALL students within the school setting. Action research is part of the practicum. Portfolio assessment #1 submitted for evaluation.
1 Credit

EA-954 Professional Culture Practicum- Elementary Standard 4
Practicum description: The professional culture practicum is designed to prepare future administrative leaders to create and nurture a school culture that will promote the success of all students, set high expectations, encourage continuous learning, model reflective practice, and nurture tolerance and acceptance of all. The development of an achievable action plan is part of the practicum. Portfolio assessment #2 submitted for evaluation.
1 Credit
EA-955 Professional Culture Practicum Middle School Standard 4
The professional culture practicum is designed to prepare future administrative leaders to create and nurture a school culture that will promote the success of all students, set high expectations, encourage continuous learning, model reflective practice, and nurture tolerance and acceptance of all. The development of an achievable action plan is part of the practicum. Portfolio assessment #2 submitted for evaluation. 1 Credit

EA-956 Professional Culture Practicum Secondary School Standard 4
Practicum description: The professional culture practicum is designed to prepare future administrative leaders to create and nurture a school culture that will promote the success of all students, set high expectations, encourage continuous learning, model reflective practice, and nurture tolerance and acceptance of all. The development of an achievable action plan is part of the practicum. Portfolio assessment #2 submitted for evaluation. 1 Credit

EA-957 Professional Culture Practicum Supervisor/Director Standard 4
Practicum description: The professional culture practicum is designed to prepare future administrative leaders to create and nurture a school culture that will promote the success of all students, set high expectations, encourage continuous learning, model reflective practice, and nurture tolerance and acceptance of all. The development of an achievable action plan is part of the practicum. Portfolio assessment #2 submitted for evaluation. 1 Credit

EA-958 Instructional Leadership Practicum Elementary Standard I
The instructional leadership practicum is designed to prepare future administrative leaders capable of promoting the growth of ALL students within the school setting by establishing a shared vision, aligned curriculum, instruction that facilitates higher level thinking and meets students’ diverse backgrounds. An action research project is part of the practicum. Portfolio assessment #2 submitted for evaluation. 1 Credit

EA-959 Instructional Leadership Practicum Middle School Standard I
The instructional leadership practicum is designed to prepare future administrative leaders capable of promoting the growth of ALL students within the school setting by establishing a shared vision, aligned curriculum, instruction that facilitates higher level thinking and meets students’ diverse backgrounds. An action research project is part of the practicum. Portfolio assessment #2 submitted for evaluation. 1 Credit

EA-960 Instructional Leadership Practicum High School Standard I
The instructional leadership practicum is designed to prepare future administrative leaders capable of promoting the growth of ALL students within the school setting by establishing a shared vision, aligned curriculum, instruction that facilitates higher level thinking and meets students’ diverse backgrounds. An action research project is part of the practicum. Portfolio assessment #2 submitted for evaluation. 1 Credit

EA-961 Instructional Leadership Practicum - Supervisor/Director Standard I
The instructional leadership practicum is designed to prepare future administrative leaders capable of promoting the growth of ALL students within the school setting by establishing a shared vision, aligned curriculum, instruction that facilitates higher level thinking and meets students’ diverse backgrounds. An action research project is part of the practicum. Portfolio assessment #2 submitted for evaluation. 1 Credit

EA-962 Management and Operations Practicum Elementary Standard 2
This practicum is designed to prepare future administrative leaders who can use efficiently and effectively the resources available to promote a safe, ethical, and healthy environment in which students and staff can learn and meet the expected goals established by the Department of Education and local community. An action research component is part of the practicum. Portfolio assessment #4 submitted for evaluation. 1 Credit

This practicum is designed to prepare future administrative leaders who can use efficiently and effectively the resources available to promote a safe, ethical, and healthy environment in which students and staff can learn and meet the expected goals established by the Department of Education and local community. An action research component is part of the practicum. Portfolio assessment #4 submitted for evaluation. 1 Credit

EA-964 Management and Operations Practicum Supervisor/Director Standard 2
This practicum is designed to prepare future administrative leaders who can use efficiently and effectively the resources available to promote a safe, ethical, and healthy environment in which students and staff can learn and meet the expected goals established by the Department of Education and local community. An action research component is part of the practicum. Portfolio assessment #4 submitted for evaluation. 1 Credit

EA-965 Management and Operations Practicum Elementary Standard 2
This practicum is designed to prepare future administrative leaders who can use efficiently and effectively the resources available to promote a safe, ethical, and healthy environment in which students and staff can learn and meet the expected goals established by the Department of Education and local community. An action research component is part of the practicum. Portfolio assessment #4 submitted for evaluation. 1 Credit

This practicum is designed to prepare future administrative leaders who can use efficiently and effectively the resources available to promote a safe, ethical, and healthy environment in which students and staff can learn and meet the expected goals established by the Department of Education and local community. An action research component is part of the practicum. Portfolio assessment #4 submitted for evaluation. 1 Credit

EA-967 Management and Operations Practicum Supervisor/Director Standard 2
This practicum is designed to prepare future administrative leaders who can use efficiently and effectively the resources available to promote a safe, ethical, and healthy environment in which students and staff can learn and meet the expected goals established by the Department of Education and local community. An action research component is part of the practicum. Portfolio assessment #4 submitted for evaluation. 1 Credit

EA-968 Educational Leadership Capstone Practicum & Seminar Elementary School
This capstone practicum of 200 clock hours will focus on strategies for overall school improvement in the student’s educational community, and will build off of action research conducted in the course work/practicum completed for the four MA standards. The three seminars attached to the practicum will be used to discuss issues and gain additional insights from peers seeking the same license and their university coach/supervisor. Action research activities that tie earlier research together are required. Please Note: Students following the Supervisor/Director track may replace EA969 with a 3-credit elective, with coordinator approval. 3 Credits

EA-969 Educational Leadership Capstone Practicum and Culminating Seminar Middle School
This capstone practicum of 200 clock hours will focus on strategies for overall school improvement in the student’s educational community, and will build off of action research conducted in the course work/practicum completed for the four MA standards. The three seminars attached to the practicum will be used to discuss issues and gain additional insights from peers seeking the same license and their university coach/supervisor. Action research activities that tie earlier research together are required. Please Note: Students following the Supervisor/Director track may replace EA969 with a 3-credit elective, with coordinator approval. 3 Credits
EA-968 Educational Leadership Capstone Practicum & Seminar High School
This capstone practicum of 200 clock hours will focus on strategies for overall school improvement in the student’s educational community, and will build off of action research conducted in the course work/practicum completed for the four MA standards. The three seminars attached to the practicum will be used to discuss issues and gain additional insights from peers seeking the same license and their university coach/supervisor. Action research activities that tie earlier research together are required. 3 Credits

EA-969 Educationa Leadership Capstone Practicum Supervisor/Director
This capstone practicum of 200 clock hours will focus on strategies for overall school improvement in the student’s educational community, and will build off of action research conducted in the course work/practicum completed for the four MA standards. The three seminars attached to the practicum will be used to discuss issues and gain additional insights from peers seeking the same license and their university coach/supervisor. Action research activities that tie earlier research together are required. Please Note: Students following the Supervisor/Director track may replace EA969 with a 3-credit elective, with coordinator approval.
3 Credits

EA-970 Professional Culture
This course focuses on ways to promote success of all students by examining, nurturing, and sustaining a school culture of reflective practice, high expectations, and ethical behavior. The importance of developing a shared vision, strong interpersonal skills, and effective written and oral communication in diverse environments are highlighted.
3 Credits

EA-972 Enhancing Teacher and Student Performance
The major focus will be on supervision and evaluation practices that promote high standards, reflection, and increasing student achievement. The course will provide the participants with the necessary skills to hire and evaluate staff, promote improvement, and dismiss educators when needed.
3 Credits

EA-973 Building the Capacity for Educational Change
Participants will examine the many variables that contribute towards realizing a school’s vision and influencing student learning. The student will identify and analyze these variables using school, family, and community data. Planning for implementing change is part of the focus.
3 Credits

EA-990 Directed Study: Education
Directed study offers graduate students, who because of unusual circumstances may be unable to register for a course when offered, the opportunity to complete an existing course with an established syllabus under the direction and with agreement from a faculty member. variable credits.
Fall and Spring and every year. 1-6 Credits

ED-901 Technology in Education
Today’s students are adept at using the technologies as integral living tools. This course will examine the variety of techniques - including, the computer, web and software, film, TV, and other mass communications - and their applications in the classroom as learning tools. Discussions will center on the genres of technology appropriate for participants’ grade levels, subject areas, and student population. Students will study computer capabilities, web research, electronic presentations, and explore software options and lesson planning. Visual literacy topics from moving and still images will be investigated as key teaching tools. Adaptive technologies will be profiled.
3 Credits

ED-909 RETELL: Best Practices for English Language Learners
The course addresses research based institutional and assessment strategies for English language learners. Working with culturally diverse learners 25 hours of pre-practicum experience required.
3 Credits

ED-910 The Child, Family, Community, and Diversity in Education
The course addresses advanced study of how differences in home experience, background knowledge and language proficiency impact school experience. Considers services provided by state and local agencies.
Fall and Spring and other or on demand. 3 Credits

ED-911 Advanced Foundations of Literacy
The course presents current approaches to teaching reading and comprehension with an emphasis on classroom evaluation and instructional decisions, research, and application strategies.
3 Credits

ED-913 Differentiated Reading Instruction
The course provides an understanding of the psychological bases of the reading process; applies the theories of the psychologist to classroom situations.
3 Credits

ED-914 Teaching and Learning Literacy Across Multiple Disciplines
The course presents meaningful theory and related teaching strategies to aid pupils in reading and learning from their content area textbooks.
3 Credits

ED-915 Leadership in Literacy: Consultation, Administration and Supervision
Prerequisites: ED-914 and ED-918 and either ED-911 or EE-911
The course addresses the implementation, evaluation and design of reading programs, legislation affecting reading programs, and staff development for the Teacher of Reading.
3 Credits

ED-916 Literature in the Classroom
The course introduces a balanced selection of literature and broadens the student’s acquaintance with the exciting world of books from kindergarten through high school.
3 Credits

ED-917 Diagnosis, Analysis, and Remediation of Reading Difficulties in the Middle and Upper Grades
Prerequisites: ED-911, ED-914 and EL-907
The course focuses on causes and symptoms of reading difficulties and intervention strategies for 4-12 students in remedial situations; case study required.
3 Credits
ED-918 Reading As Language: Teaching Literacy to English Language Learners
The course explores knowledge, perspectives, and procedures for teaching literacy to English language learners, and focuses on the interrelationship acquisition of reading.
3 Credits

ED-919 Reading Practicum/Internship
Prerequisite: approval of Program Coordinator, passing score on Reading Specialist MTEL Candidate plans and implements the responsibilities of a Teacher of Reading in a field-based supervised setting.
3 Credits

ED-920 Cogn/Afftv Lrng-Typ&Atyp Chldr
Prerequisites: ED-981
Investigates cognitive/affective learning in typically developing children and children with special needs. Explores alternative instructional strategies for inclusion and IEP (Individual Educational Plan) and IFSP (Individual Family Service Plan) implementation.
Fall and Spring and every year. 3 Credits

ED-921 Developmental Patterns of Children With Special Needs
The course focuses on the study of the child/adolescent with special needs including characteristics, psychological, educational, and sociological impact of developmental differences. Includes educational terminology for students with mild/moderate disabilities.
3 Credits

ED-922 Analysis and Interpretation of the Behavior and Learning Environment of Children
Prerequisites: ED-921
The course addresses evaluation procedures used to assess academic, cognitive, affective, and behavioral functioning of the child and adolescent. Formal and informal techniques for evaluating the effectiveness of instruction are examined. Behavior management plans and assistive technologies are included. Pre-practicum. Pre-practicum required.
3 Credits

ED-923 Development and Implementation of an Individualized Education Plan
Prerequisites: ED-921
The course considers federal and state laws regulating the development and implementation of individualized educational programs: Prereferral, assessment, eligibility, developing goals and objectives, program delivery and measuring progress. Pre-practicum required.
3 Credits

ED-924 Strategies for Teaching and Assessing Students With Moderate Special Needs
Prerequisites: ED-921
The course focuses on the Massachusetts curriculum frameworks, reading, writing, and mathematics, strategies for students with disabilities to access the general curriculum and alternate assessment procedures. Pre-practicum required.
3 Credits

ED-925 Communication and Interpersonal Skills
Focuses on the theories and techniques of consultation.
3 Credits

ED-926 Seminars Curriculum Development and Instructional Techniques
Prerequisites: ED-921 ED-922 ED-923 ED-924
Corequisites: ED-928
The course addresses principles of curriculum development and the use of instructional techniques for special needs students.
3 Credits

ED-927 Inclusive Settings: Learning Strategies and Management Techniques (1-6)
This course addresses the learning and behavior needs of special learners and helps teachers to develop strategies and techniques that can be used to improve knowledge and skills of all students in inclusion settings. Managing classroom behavior to enhance teaching and learning will be a focus in this course.
3 Credits

ED-928 Practicum for the Moderate Special Needs Teacher
Prerequisites: ED-921 ED-922 ED-923 ED-924
Prerequisites or Corequisite: ED-926
A practicum in which the student demonstrates competencies in the delivery of direct services: assessment procedures, educational planning, classroom management, curriculum development, and in-service education.
3 Credits

ED-929 Mathematics Assessment and Instruction For Diverse Learners
This course presents mathematical concepts, methods and materials to facilitate learning. Emphasis is also placed on supporting students with mild to moderate disabilities learn and understand mathematic contents.
Fall and Spring and every year. 3 Credits

ED-949 American Education: Contexts and Influences
The course examines the social and historical contexts of American schools, noting appropriate psychological principles, learning theories, philosophies, political and demographic trends, and their influences on educational policies and classroom practices.
Other or on demand. 3-4 Credits

ED-950 Integrating Science and Social Studies in the Elementary/Middle Schools
The course emphasizes curriculum development with a focus on creation of thematic units integrating science and social studies using cooperative learning models.
Other or on demand. 3 Credits

ED-951 Integrating Language Arts and Social Studies in the Elementary/Middle Schools
The course addresses curriculum development with a focus on integrating Language Arts and Social Studies utilizing children's literature, reading, and writing skills.
Other or on demand. 3 Credits

ED-952 Language Science
The course is an introduction to linguistic knowledge and structure including theoretical aspects of pragmatics, semantics, syntax, morphology, and phonology, in a multicultural perspective.
3 Credits

ED-953 Integrating Science and Mathematics in the Elementary/Middle Schools
The course addresses curriculum development with a focus on the creation of thematic units integrating science and mathematics using cooperative learning models.
Fall and Spring. 3 Credits
ED-955 Assessing English Language Learners
The course focuses on second language acquisition and linguistic principles guide the review of standardized instruments, dynamic assessment strategies, standards-referenced assessment and teacher design approaches.
3 Credits

ED-957 Instructional Design and Evaluation for Middle School Grades
Prerequisites: ED-949
The course reviews relevant models of instruction and their application in middle school grades. Examines appropriate evaluation strategies and approaches designed to give students the ability to plan and implement overall assessment strategies, including alternative assessment and the use of technology in instruction and evaluation. Includes 25 pre-practicum hours.
Fall and Spring. 3 Credits

ED-958 Middle School Curriculum and Instruction: Strategies and Modification
The course is designed to give students the ability to design and present instruction in ways that are commensurate with the developmental needs and readiness of early adolescent learners. The issues of inclusion, cooperative learning, block scheduling, thematic, and integrated curriculum and interdisciplinary curriculum are examined.
3 Credits

ED-959 Assessment, Differentiation and Data Analysis in Middle School
Designed to give students the ability to plan and implement overall assessment strategies appropriate for middle school grades including formative, summative, differentiated, performance based, and self assessment strategies. Analysis of assessment data will inform adjustments to practice.
Every year. 3 Credits

ED-960 Educational Law
The course focuses on an in-depth investigation of specific school laws and how they relate to the role of the teacher and administrator.
3 Credits

ED-961 Educational Supervision and Evaluation
The course is designed to develop competency in the supervision and evaluation of teachers.
3 Credits

ED-963 The Understanding and Teaching of Culture
The course focuses on approaches to cultural analysis and survey of techniques used to teach culture in the classroom.
3 Credits

ED-964 Current Issues in Education
The course emphasizes problem solving and case study approaches.
3 Credits

ED-965 Principles of Curriculum Development
The course focuses on aspects of curriculum development, society, culture, learning theories, taxonomies of educational objectives, structure, hierarchy, balance, politics, strategy for change.
3 Credits

ED-966 Analysis of Curr Programs
The course focuses on current curriculum programs in grades nursery through 12: an analysis of objectives, descriptive characteristics, and theoretical foundations. Student-devised criteria used to assess curriculum programs.
3 Credits

ED-967 Theories of Instruction
The course focuses on historical, philosophical, and psychological foundations of various theories of instruction.
3 Credits

ED-968 Seminar in Curriculum and Instruction
The course emphasizes discussion and evaluation of curriculum and instruction as applied to a real or theoretical construct.
3 Credits

ED-969 Teaching to Diversity: Methods and Materials (middle School)
The course explores appropriate instructional strategies and school practices which promote equity pedagogy in middle school classes. Identifies basic manifestations of diversity in our society and classroom, and explores ways of building bridges between the learner and the curriculum through instructional adaptations. Pre-requisite: Completion of all core courses.
Fall and Spring and other or on demand. 3-4 Credits

ED-970 Workshop for Educators
The course offers specialized workshop experiences structured to enhance teacher abilities to implement new educational practices.
3 Credits

ED-971 Spec Topics in Education
This special topic course focuses on in-depth exploration of contemporary educational topics or issues.
3 Credits

ED-972 The Adolescent Learner: Needs and Characteristics
The course examines the needs and characteristics of the adolescent learner and the corresponding implications for curriculum, instruction, classroom management and school organization.
3 Credits

ED-973 Instructional Design and Evaluation for Secondary School Grades
Prerequisites: ED-949
The course reviews relevant models of instruction and their application in secondary school grades, examines appropriate evaluation strategies and approaches designed to give students the ability to plan and implement overall assessment strategies, including alternative assessment, and the use of technology in instruction and evaluation. Includes 25 pre-practicum hours
Fall and Spring and other or on demand. 3 Credits

ED-974 Curriculum Development and Innovations (Secondary School)
The course draws upon extensive review of the literature on curriculum theory and models of instruction to examine relevant innovations in curriculum development and instructional delivery, noting their practical applications in Secondary Schools.
Fall and Spring and other or on demand. 3 Credits

ED-975 Assessment, Differentiation and Data Analysis in Secondary Schools
This course is designed to give high school teachers the ability to plan and implement overall assessment strategies appropriate for secondary school grades including formative, summative, performance based, differentiated and self assessment strategies. Analysis of assessment data will inform adjustments to practice.
Other or on demand and every year. 3 Credits
ED-976 Teaching to Diversity: Methods and Materials Secondary School
The course explores appropriate instructional strategies and school practices which promote equity pedagogy in Secondary School classes, identifies basic manifestations of diversity in our society and classrooms and explores ways of building bridges between the learner and the curriculum through instructional adaption.
3 Credits

ED-977 Seminar in Contemporary Trends and Issues in Middle and Secondary Schools
The course examines contemporary issues and trends in middle and secondary school curriculum, instructional delivery, assessment, classroom management, and the use of technology.
3 Credits

ED-978 Contemporary Issues in the Teaching of Bilingual and English Language Learners
The course focuses on language policies for educating ELLs, including bilingual, national language models, heritage languages and multicultural education as managed in multilingual nations.
3 Credits

ED-979 Technology and Literacy in the Classroom
The course examines the key components of balanced literacy in the K-8 school classrooms with a focus on the integration of educational technology as a tool for instruction, student centered learning, assessment, as well as family-school engagement.
3 Credits

ED-980 Ind Study in Education
An opportunity for further study in a special field of interest under faculty supervision.
3 Credits

ED-981 Advanced Foundations of Education
The course explores historical, philosophical, psychological, legal, and cultural foundations for education and school practices.
Fall and Spring and every year. 3 Credits

ED-982 Research in Education
The course examines different research methods and designs, including writing hypothesis, reviewing literature, gathering data and preparing research proposals.
Fall and Spring. 3 Credits

ED-983 Theory and Research in Reading
The course investigates theories and research regarding current trends in reading instruction and provides for completing a research project.
3 Credits

ED-984 Reading Portfolio
Prerequisites: Completion of all reading core courses. Approval of Program Coordinator.
This course is a capstone experience for Teacher of Reading Candidates to document accomplishment of state certification competencies and program requirements.
1 Credit

ED-985 Clinical in Reading
Clinical experience of students completing standard stage certification as a Teacher of Reading. 400 hrs.
5 Credits

ED-986 Literacy Instruction for the English Language Learner (ELL)
The course focuses on current approaches and theories of second language literacy and integrates reading and writing in classroom environments.
3 Credits

ED-987 Social, Political, and Cultural Issues In Education
Examines the social, cultural, and political forces that shape schools, and provide the context for teaching and learning. Additionally, the types of existing and desired relationships among schools, families and communities will be discussed.
3 Credits

ED-988 Brain Based Learning
This course has been designed to strengthen teachers’ own knowledge of the latest findings in neuroscience as they relate to the field of education. Topics span a wide range of neuroscience research including biological basis of learning and memory, brain mechanisms underlying language acquisition, gender differences, and disorders of thought. Special emphasis is given to the limitations and misuse of research by some, and the need for skepticism and replication when evaluating "brain-based" claims of service providers. Participants in this course will be active learners, analyzing current research articles, and reflecting on their own experiences as both learners and educators in the context of neuro-education.
3 Credits

ED-989 Technology and Educational Leadership
The course explores the role of the educational leader in the choice, acquisition, and use of technology for management and learning.
3 Credits

ED-990 Independent Research in Education
For students wishing to pursue an independent research study in a specialized area of education
1-3 Credits

ED-992 Portfolio Evaluation
Prerequisites: ED-981 ED-982
The course documents the student’s learning and provides a basis for evaluation of student’s performance and mastery of the certification standards. (All required certification courses must be completed.)
Fall and Spring. 1 Credit

ED-993 Seminar: Research in Content Concentration
Prerequisite: Completion of 24 graduate credits in Master’s Program and completion of a minimum of 18 credits in the content area of concentration. The course focuses on educational issues Students will conduct a formal study that seeks to investigate teaching and learning in the student’s content strand of concentration.
3 Credits

ED-994 Thesis Seminar
Prerequisite: Completion of all core and required courses. Students work with faculty advisor(s) to design, implement, and evaluate a formal study that seeks to investigate a significant issue, professional and content related in secondary school education. The focus is on the application of research skills and the presentation of research reports.
3 Credits

ED-995 Elementary Education Clinical Experience :Grades 1-6
Teaching experience, grades 1 through 6. Involves planning, implementing, and evaluating learning in a setting with typical and atypical students.
Fall and Spring. 5 Credits

ED-996 Research and Evaluation
The course focuses on research and evaluation methods and designs; includes gathering and analyzing data, writing research, and making evaluation reports.
3 Credits
ED-997 Advanced Philosophical Foundations of Education
The course examines the basic principles of some major philosophers and demonstrates their effect on contemporary educational theories in the western tradition.
3 Credits

ED-998 Advanced Psychological Foundations of Education
The course analyzes major schools of psychology with attention to contemporary issues, role of the educator in the learning process and application of psychological principles to specific classroom situations.
3 Credits

ED-999 Internship in Education
A 400-hour internship in an area of professional education.
3-12 Credits

EE-900 Literature for Young Children
The course surveys quality literature appropriate for early childhood, development of programs in literature and effective storytelling procedures.
3 Credits

EE-901 ECE: Curriculum & Evaluation
The course addresses design, implementation and evaluation of integrated, developmentally appropriate programs; evaluation of children's development and learning; curriculum content; play and learning.
3 Credits

EE-902 Methods and Materials in Early Childhood Education
The course focuses on activities designed to enable young children to use their abilities to the fullest.
3 Credits

EE-903 The Language Arts in Early Childhood: Content, Curriculum, Evaluation, Methods and Materials
The course explores topics from MA English Language Arts Curriculum Frameworks. Addresses design, implementation, assessment of integrated, developmentally appropriate Language Arts programs. Every year. 3 Credits

EE-904 Exploring Science in Early Childhood Education
The course uses MA Frameworks to develop and assess activities that foster learning and discovery, connect science with literacy, mathematics, and social studies.
3 Credits

EE-905 Evaluation and Remediation Techniques of Young Children with Special Needs
The course focuses on a multi-disciplinary approach to the evaluation of children with special needs.
3 Credits

EE-907 Intellectual Development in Early Childhood Education
The course examines the intellectual levels of children based on current research including Piaget and others.
3 Credits

EE-908 Evaluation of the Young Child
The course focuses on understanding and interpreting the results of psychological and educational tests of preschool age children.
3 Credits

EE-909 Supervision and Administration in Early Childhood Education
The course outlines steps for the organization and administration of day care centers, nursery schools, and other programs for young children.
3 Credits

EE-910 The Preschool Child With Special Needs
The course focuses on detection, evaluation, and remediation of learning disabilities in young children from three years.
3 Credits

EE-911 Early Literacy for Young Children
This course focuses on the skills and techniques for presenting readiness skills and teaching beginning reading to children.
3 Credits

EE-912 Young Children and Integrated Early Childhood Education Practices
The course adapts programs, material, practices, environments for individuals. Implements theories integrating special needs children into regular classroom and early intervention strategies. Fall and Spring. 3 Credits

EE-913 Social Studies in Early Childhood: Content Curriculum, Evaluation, Methods And Materials
The course explores topics from MA History and Social Studies Curriculum Frameworks. Addresses design, implementation, assessment of integrated, developmentally appropriate Social studies programs.
3 Credits

EE-915 Detection and Remediation of Early Reading Difficulties
The course addresses beginning reading difficulties, identification techniques, including observational surveys and running records, causes and prevention strategies, remedial material/techniques, national reading programs.
3 Credits

EE-916 Mathematics in Early Childhood Education: Content, Curriculum, Evaluation, Methods and Materials
The course addresses design, implementation and evaluation of successful, integrated, developmentally appropriate mathematics programs, and explores topics from MA Curriculum Frameworks.
3 Credits

EE-917 The Fine Arts in Early Childhood: Content, Curriculum, Evaluation, Methods and Materials
The course uses MA Frameworks to develop and assess activities fostering learning and creativity. Connects the arts with literacy and social studies.
3 Credits

EE-919 Seminar in Early Childhood Education
Current issues and problems in the field of early childhood education.
3 Credits

EE-920 Independent Research in Early Childhood Education
For students wishing to pursue independent study in a specialized area of early childhood education.
3 Credits

EE-930 Environments and Programs for Infants and Toddlers
The course focuses on designing developmentally appropriate programs for infants and toddlers, includes environment, play, curriculum, materials, identification, intervention strategies for at risk infants/toddlers.
3 Credits

EE-931 Infant and Toddler Development and Care
The course emphasizes theory and research regarding typically developing and at risk infants/toddlers. Caregiving procedures are addressed.
3 Credits
EE-950 Clinical Experience in Early Childhood Education: N (infant, Toddler, Preschool) Level
Prerequisite: Permission of the Department Supervised teaching experience at infant, toddler, preschool level. The course involves planning, implementing, evaluating learning. Minimum 200 hours over a minimum 8 week period - 3 credits; 400 hours (entire semester) - 6 credits.
Fall and Spring. 5 Credits
